KENTON™

IF WATER FLOWS THROUGH IT...
WE DO IT.!

ABOUT US...

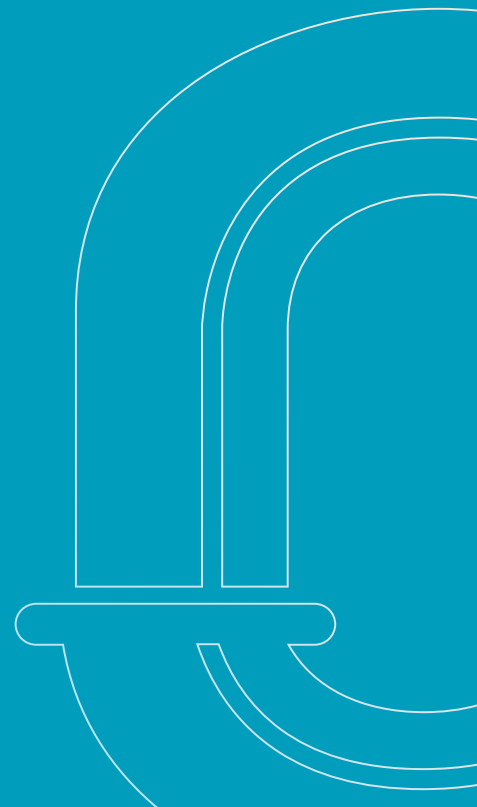

Krishna Poly Plast, established in 2015, is a growing manufacturing company specializing in high-quality piping, plumbing, and infrastructure solutions. With a strong focus on quality, innovation, and performance, we cater to residential, commercial, industrial, and infrastructure applications.

We began our journey with SWR drainage and PVC pipes & fittings and expanded under our flagship brand **KENTON™** to meet evolving market demands.

In 2022, we introduced **cPVC** pipes and fittings, followed by **uPVC** Schedule 40 & Schedule 80 systems for high-pressure applications. Our continuous diversification includes the launch of **PTMT** water taps (2023), **FRP manhole** covers (2024), and entry into the **wires & cables** segment (2025)—strengthening our position as a comprehensive solution provider for modern construction and infrastructure needs.

Driven by advanced manufacturing, strict quality control, and customer-centric values, Krishna Poly Plast is committed to delivering reliable products that build long-term trust.

KENTON™ – Quality that Flows with Trust.

Our Mission

To manufacture and supply reliable, high-quality PVC pipes and fittings that meet customer needs across plumbing, agriculture, and infrastructure applications. We aim to achieve customer satisfaction through consistent quality, timely delivery, and continuous improvement, while maintaining ethical and transparent business practices.

Our Vision

To establish KENTON as a recognized and preferred brand in the PVC piping industry by expanding our product range, adopting advanced manufacturing technologies, and building long-term relationships with customers, dealers, and partners across the market.

Quality Policy

At Krishna Poly Plast, quality is the foundation of everything we do. We are committed to:

Manufacturing products that comply with industry standards and specifications.

Using quality raw materials and modern production processes.

Implementing strict quality control checks at every stage of manufacturing.

Continuously improving our systems, products, and processes.

Ensuring consistent performance, durability, and reliability in every KENTON product.

Our quality policy reflects our promise to deliver products that customers can trust—every time.

UniqueFIT

cPVC PLUMBING SYSTEM

FOR HOT & COLD WATER APPLICATION

From ½" to 3" Inch

KENTON cPVC Pipes and Fittings are engineered to deliver superior performance in **Hot & Cold** water distribution systems. Manufactured using high-grade cPVC compound and advanced processing technology, our products are designed to withstand High Temperatures, Pressure Variations, and long-term usage without compromise.

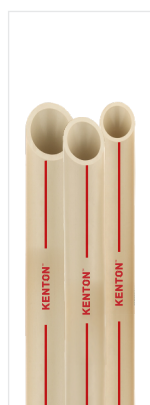

- The Pipes are made as per ISI and Fittings are made as per ASTM D 2846
- The Pipes are supplied plain in 3 Meters and 5 Meters Length, in SDR 11 and SDR 13.5 Respectively
- The Complete Fittings are available in SDR 11 Class
- The Pipes and Fittings are available in 15 to 80 mm (½" to 3")

Application

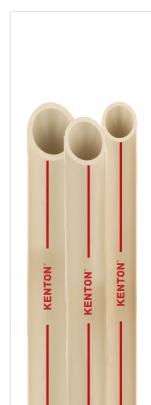

KENTON cPVC systems offer excellent thermal stability, corrosion resistance, and chemical resistance, making them ideal for residential, commercial, and industrial plumbing applications. Their smooth inner surface ensures low friction loss, consistent flow rates, and minimal scaling, resulting in efficient and maintenance-free performance over time.

KENTON cPVC - Designed for Heat. Built for Reliability.

uPVC PLUMBING SYSTEM FOR COLD WATER APPLICATION

From ½" to 3" Inch

KENTON uPVC Plumbing Pipes and Fittings are manufactured to provide efficient, durable, and maintenance-free solutions for **Cold** water distribution and plumbing systems. Produced using high-quality unplasticized PVC compound and advanced extrusion and molding technology, our products ensure high strength, dimensional stability, and long service life.

- The Pipes are made as per ASTM D-1785 and Fittings are made as per ASTM D 2467
- The Pipes are supplied plain in 3 meters and 6 meters length, in SCH 40 and SCH 80 Respectively
- The Complete Fitting range is available in SCH 80
- The Pipes and Fittings are available in 15 mm to 80 mm (1/2" to 3")

Application

KENTON uPVC systems are non-corrosive, chemically resistant, and immune to scaling, making them ideal for residential, commercial, and industrial plumbing applications. The smooth inner surface reduces friction losses, enabling uniform water flow and improved hydraulic performance.

Reliable, cost-effective, and hygienic, KENTON uPVC Plumbing Pipes and Fittings are a trusted choice for modern plumbing systems where performance, safety, and longevity are essential.

KENTON uPVC - Precision Engineered. Built to Perform.

uPVC PLUMBING SYSTEM FOR COLD WATER APPLICATION

KENTON uPVC Pipes and Fittings are made as per ASTM (American Society for Testing of materials) standards.

- The Pipes are made as per ASTM D-1785 and Fittings are made as per ASTM D 2467
- The Pipes are supplied plain in 3 meters and 6 meters length, in SCH 40 and SCH 80 Respectively
- The Pipes and Fittings are available in 15 mm to 25 mm (1/2" to 1")

Application

This System is designed for normal water application and it is an ideal solution for portable water distribution, Plumbing and water supply in homes, apartments, hotels, hospitals, swimming pools and industrial building.

SmartFIT

SWR SYSTEM (RING FIT & SELF FIT)

FOR DRAINAGE SOLUTION

From 2½" to 6" Inch

KENTON Sewerage Waste Rainwater (SWR) Pipes & Fittings are manufactured from specially formulated unplasticised polyvinyl chloride compound. This pipes & fittings are tough and durable with high tensile and impact strength.

Applications

KENTON Sewerage Waste Rainwater (SWR) Pipes & Fittings are available in 'O' ring joint & Solvent fit joint for Quick, Efficient & Leak Proof Waste Discharge systems for Homes, Apartments, Hostels, Commercial Complex, Airports & Hospitals. Also suitable to drain out the industrial wastage in food processing plant. Venting of gasses/smells/bad odors. Non pressure drainage application. Rain water transportation.

Features

- Quick, Easy Installation & Light Weight
- Leak proof Joints
- High Quality
- Manufactured using latest Injection Molding Technology
- Economical Low Maintenance
- UV stabilized & Weather Proof
- Designed for long Durability & Service
- Corrosion & Chemical Resistance
- High flow rate due to smooth inner Surface
- Hygienic & Environment friendly
- Easy access for cleaning
- Alternative to cast iron and cements systems

KENTON SWR – Engineered for Flow. Built for Durability.
